

OBSTINACY – Press release

The persistence a Death Metal band can decide in your ears with is already contained in OBSTINACY's name.

Anyone who likes hardest sounds, diversity and just Death Metal made with lifeblood, can hardly ignore OBSTINACY. Grooves with head banging guaranty paired with blast beats and dark tunes - this is what the Death Metal quartet from Franconia stands for.

Over more than 20 years of ups and downs in band history having pleasure through Metal and the friendship between the members - although several changes in cast - had priority. And also on stage this enthusiasm and humor and proximity to the audience are clearly felt.

Along the way a few bands influenced the song writing. The most important ones might be Dying Fetus, Kataklysm and Cannibal Corpse.

Since 2000 OBSTINACY gave numerous live shows in the south of Germany and from time to time shared stage with Magnitudes like Belphegor, Vader, Doro and Rage.

After the two studio albums the EP "Desolation" was released followed by the Single "Infernal" in 2021. And at this moment OBSTINACY are creating new Death Metal that can't wait to shatter stages and to be united into a new Album.
